

EDITOR'S NOTE

THE CHASE

Perhaps you have seen a film where there is a race or chase with cars, motorcycles, planes, boats, on horsebacks or by foot, etc. This is the main theme in many movies that captures the attention and focus of the public.

This seems to reflect an aspect of what happens in the lives of many people, of course without much action and danger. Many are caught in the "rat race" behind the cheese.

Yes, it seems that we are continually looking for something:

food, money, pleasure, joy, sex, fame, recognition, gratitude, compassion, kindness, knowledge, house, car, music, warmth, love, etc.

The ultimate goal behind this quest is "Happiness" or "Joy". The search is performed according to our abilities and our consciousness. For some life is about capturing a prey and avoid being captured. For others, it is about expressing feelings, emotions, thoughts, etc. ...; similar to what an artist does. Some people feel the joy of understanding.

Many feel the pleasure of superiority by controlling others. Others seem to seek the pleasure of inferiority by being controlled by others (?)

We seem to be trapped in a web of:

- rights and wrongs
- white and black
- light and darkness
- the unconsciousness with open eyes (waking) and the subconscious with eyes closed (sleep)
- seeing the glass half full and half empty
- other dichotomies.

Life for many is a "persecution" like in the movies that attract so many people.

Agnihotra brings your focus from the outside into the depth within you to the encounter with your Soul.

Why do we do this if there are no actual cases where "happiness forever" is achieved?

The Spiritual Scientists say: The Mind and the active senses usually lead to extroversion and change.

We are running out in all directions behind transient pleasures but "Real and Permanent Happiness is within us".

The Fivefold Path helps us to go inwards (internalizing our attention) and in one direction, towards the Center.

Most people look for gifts behind after their actions. However, eventually we will want to approach to one who gives us the gift of life, to the source of everything.

The fire (light) and the Mantra (sound) of Agnihotra helps us to resonate with the light and the sound which is intrinsic to our being.

The Source is "Sat-Chit-Ananda" (Reality-Consciousness-Bliss).

As we disentangle, we see that everything can be real or unreal (true or false) in this world of relativity. However, sometimes we managed to smell the fragrance of a flower, without seeing it.

EDITOR's NOTE cont.

By hearing a pure heart, we acquire the faith that goes beyond the intellect.

And yes, yes, yes, the Fivefold Path can help us realize that even though "we know nothing", we can: perceive the abstract, feel the untouchable, listen to the silence, see the unseen beauty and realize the greatness which is beyond the mind.

We may conclude with what your soul already knows, the answer is:

"UNCONDITIONAL LOVE".

The Light of Agnihotra leads to reflection, internalization, meditation and facilitates the path to Divine Self-Realization.

It can also help us feel the joy and happiness of Christmas today, tomorrow and every day.

We wish you a Merry Christmas.

HOMA HEALING STORIES

Psychologist Jorge Torres

**University Clinic and Polyclinic EsSalud Paul Nogier
Carabayllo, Lima, Perú**

"We work in a health center in Carabayllo that belongs to EsSalud (Social Security Hospitals in Peru). We started this beautiful therapy last year (2013) with the visit of Abel and Aleta. I also met Christian Álvaro for the first time then.

I incorporated Homa Therapy into the psychology program as an Anti-stress reliever. Since then, we have not stopped doing it. We count with the full support of the Medical Director, Dr. Jesus Borja.

We are working with many patients and the positive cases are innumerable. **The simplest cases are people with depression, anxiety and/or panic disorder. Others come with metabolic diseases, such as diabetes, which is a major health problem worldwide and in Peru too. People have been able to lower their glucose level. People who have been taking medications to sleep, to manage anxiety, in psychiatric treatment, have reduced their medication and some even have eliminated it. Of course, they are attending the Homa Therapy session and consuming the Agnihotra ash.** Yesterday, we saw the case of a woman who had come because of insomnia and anxiety for over 3 years. The medical doctor, who could do no more for her, referred her: **"Go to see the psychologist and get some consolation".**

Most of our patients arrive with chronic diseases. We must have an opening to see the whole person, not just the symptoms. We approach to the emotional, spiritual, physical and energetic components. I see it like that and that is how I work. Along with the treatment, I indicate to the patients that they have to participate in the Homa sessions. They can decide when to leave or how long to remain in the Homa Therapy (HT) treatment.

This year we celebrated our first year of HT. The week of **'Mental Health'** was also a week of Homa Therapy activities.

There were lectures about different **holistic therapies and Ayurveda, including Homa Therapy** and our Agnihotra sessions. There were several Agnihotra fires lit and it was beautiful! Among other activities, we visited the village Chosica and did our Homa Healing Fires.

"On a personal level, I also practice Agnihotra in my home and I recommend it to everyone."

Note: Now, HT is also practiced in the Polyclinic EsSalud "Paul Nogier".

HOMA HEALING STORIES

Noemí Mena Vasquez
University Clinic
Comas, Lima, Peru

I am 26 years old. At first, I visited Dr. Torres **ready to cry. I felt like my heart was about to explode** and I did not know why. He invited me to the **Therapy of the Healing Fire** and **I felt good.**

I exploded because I had to let out that pain and the compressed feeling, but now I am OK. And in spite of any problems, **I'm always smiling. I feel good and very grateful.**" (Foto: Dr. Torres y Srta. Noemi.)

Mrs. Dora
University Clinic
Comas, Lima, Peru

"I am 32 years old and I **suffered from compulsive anxiety. I ate too much.** My weight went up to 107 kilos. When I ate, I did not feel that I was full; I ate and ate and ate. I had many cravings. **I also had lost my father.**

As I participated in Homa Therapy, gradually my appetite reduced.

I also had a very conflicted personality and argued a lot with my husband. I even went that far to hit him. I was very difficult.

When I started taking the Agnihotra ash, my character changed completely. The first time I got scared - I felt like blinded. I thought how strange! But gradually my character is changing and I am more passive and understanding. **I keep participating in the Homa Therapy in the Hospital EsSalud Carabayllo with Dr. Jorge Torres. I started in August 2014 and I have almost four months with Homa and I feel good."**

"I am 37 years old. I have had an experience with my dad, who is **82 years old. The calf hurt him a lot.**

I had given him pills, rubbed creams, but the pain continued and he could not walk any more. However, applying the Agnihotra cream (ghee with Agnihotra ash) three nights, he is fine and he walks.

He could not walked, but with the application of the Agnihotra ash cream for three nights, the pain disappeared and did not return. Now he walks normally. My father's name is **Pedro Paredes."**

- THE MARVELLOUS HEALTH OF UNVACCINATED CHILDREN

FOR ARGENTINA WITHOUT VACCINES

By Françoise Berthoud, MD

Some of the basis of my ability to speak on the marvellous health of unvaccinated children comes from my personal experience as a medical doctor, having collected years of feedback. “My child began coughing immediately after the vaccination.” “He has had constant ear aches since he was vaccinated.” “My 16 years old daughter is completely unvaccinated. She is almost never sick. If she does get sick, it’s two days at the most.” “The neighbour’s kids followed normal vaccination guidelines. They are constantly sick and on antibiotics.” To read the full article please see: <http://www.vaccinationcouncil.org/2010/06/25/the-marvellous-health-of-unvaccinated-children/>

COP20 LIMA - AGREEMENTS MADE ON CLIMATE CHANGE

Sunday, December 14, 2014

Apparently two weeks of negotiations were not sufficient to define the pre- agreement. **The complicated decisions to curb climate change have been postponed until March next year.**

(Reuters) Today, about 190 nations agreed about the pillars of a new global agreement to combat climate change in 2015, amid warnings that a much tougher action is needed to limit the rise in global temperatures.

Under the agreement reached in Lima, governments must submit national plans to curb emissions of greenhouse gases in an informal deadline of March 31, 2015. These plans will be the basis for a global agreement to be reached at the summit Paris later that year. WEATHER CAUSES A NEW GEOGRAPHY OF FOOD

LIMA, December 13, 2014 (IPS) - The high frequency and magnitude of climate variability with increasing global temperatures and consequent alteration of rainfall are changing geography of crops and food production in the tropics. This was alerted during the climate summit in the Peruvian capital.

That was the big concern that coincide food safety experts present at the 20th Conference of the Parties (COP 20) of the Framework Convention of the United Nations Climate Change (UNFCCC).

They fear notable increase in food prices if tropical countries do not adopt techniques to adapt soon.

The International Research Institute (IFPRI,) estimates that climate change will generate increases in food prices up 30 percent. For more information please see:

EVENTS AROUND THE WORLD - TENJO, COLOMBIA, SOUTH AMERICA

**Mrs. Maria Teresa Nunez
from Bogota shares her dream:**

"I dream that with each passing day, more and more pyramids will carry Light, especially those that were acquired one day and now lay dormant in some shelf because the owner forgot, or doesn't understand what he/she has in his/hers hands: **the "weapon" to save our homes. More powerful than any nuclear warhead or atomic bomb.**

It is within our reach, not even requiring that we leave our homes.

It only needs a minimal but constant effort on our part. **So why not to overcome our indifference towards our own wellbeing and that of all humanity by LIGHTENING OUR AGNIHOTRA PYRAMIDS FROM TODAY ONWARDS?**

(The photos on this page show the practice of Homa fires in the Quantum Seed Maloka, Bogota. In the photo to the right, first on the right is Mrs. Maria Teresa Nunez guiding the Homa meeting.)

MESSAGES FROM SHREE VASANT

Concentrate on being pure of thought, word and deed. Purify and simplify your life. Learn to think of others and less of yourself. Less and less and less. Then emotional problems, faults, inconsistencies, fears, bad habits, all disappear. If you begin thinking about the other person, you have no time to think of your own frailties. No doubt you should be aware of them but do not dwell on them. It has the same effect as the person who thinks he is perfect. He struts around the stage of life totally unaware of his effect on others and others' needs. Still the same, if a person walks around thinking he is terrible, feeling depressed he has no time to listen to others' problems. Same thing and the same effect. Think of others to get rid of your ego.

Never deny the other. Do not reject one another or criticize, find fault, attach blame. All the time do the Mantra. All the time.

You become more and more like a child not so concerned with material matters.

Tension is terrible. Tension on mind increases. It becomes difficult to be out of Agnihotra atmosphere. See how the people are reacting to it—even normally happy people, well-adjusted, successful, in good marriages—they are also becoming affected by the tension. It is not only atmospheric, due to pollution, but to interplanetary disturbances. Planet is deteriorating rapidly.

You must get into the habit of waking up early every morning. It may take several days to get accustomed to it but after that you will find such pleasure in it. You can arrange meanwhile that someone who does the disciplines call you at 5 am each morning. This will keep him disciplined as well.

AGNIHOTRA - ANTIDOTE TO POLLUTION

We do not claim Agnihotra to be of any religious origin. It is a tool which allows us to become more understanding of the problems of others, the problems we are faced with in the world, the negativity, the air pollution. This itself enables us to become more full of love. Hence science paves the way to the Kingdom of Heaven which lies in each of us.

This is the answer to be given to all universe.

Let the planet vibrate the message of love. Let Agnihotra be taken to all people, all across the globe.

FROM ORION TRANSMISSIONS

(as received by Parvati Bizberg, Poland)

On Revealing Truth

... En Indeed we have proclaimed this the 'Age of Truth and Manifestation.' It will be increasingly difficult for the corrupt nations of the world to continue to hide that which is written in the stars. There are ancient languages, which were not written by the hand of man but revealed through Divine. In those languages the truth is coded and is being decoded—not only Sanskrit, though Sanskrit is the most known. There are other languages, few which will be discovered, but they are not necessarily spoken languages and thus as yet relatively unknown.

There are avenues through which truths can be revealed. Music is one such avenue. If you align yourself with positive intent to reflect the stars to which you are drawn and translate that into sound, you will be tapping into sacred sound. However, this may require additional instrumentation of a higher frequency.

Fortify yourselves in body, mind and spirit. And yes, the element of Fire is crucial to the release of information coded into crystals and water. Also crystals. The fervor with which the great Master delivered these ancient Fires around the world was not His own doing. His every move was guided and He knew far more than He spoke. The importance of Agnihotra and these ancient fires being revived to rejuvenate planet Earth is far greater than it seems.

All the elements must come together—Earth, Air, Fire, Water, Ether—and the great connector will be Sound. **When you tap into the rhythms of the soul you tap into the rhythms of the stars, the planets, the Universe.**

Oh and yes there will emerge two suns. That we have always told.

And yes, there is call for further activations of ancient sites. You are precisely where you ought to be, all of you. **This sacred place is a vehicle of Light, a vortex of energy.**

All need focus more on healing. Do not allow yourselves to become disoriented or disheartened. Indeed, priorities will shift as knowledge awakens. Sound and Fire and Water, attuned to planetary configurations—look into this. So much more to be revealed.

No one asks such questions now. It is not through the political realms that any success will be garnered. You must go deeper and further into the mystic.

Dear brother, the second sun already exists. It is formed of the old and the new. It has yet to rise. Not all of this interpretation that you referred to is correct.

The ancient tribes had more pure focus, more awareness. Yet indeed, there was much corruption even then. Of course, those that follow these ancient religions have no idea of any negative connotations. Those Illuminati know. But the power of evil will be destroyed.

Thus, we caution you, we implore you to focus on the Light. You may reveal the darkness but you must reveal the Light. You see?

You may reveal the darkness, but you MUST reveal the Light.
